Alter G

AlterG Anti-Gravity Treadmill in Mesa

Rehab & Train Unburdened

Thanks to its precise unweighting technology, the AlterG Anti-Gravity Treadmill allows you to push your physical therapy rehabilitation and training further than ever before.

You can:

- Reduce gravity's impact by selecting any weight between 20% and 100% of your body weight by 1% increments
- Rehabilitate lower extremity injuries with less pain and less impact
- Improve mobility, strength and safety for those with neurological conditions
- Provide a safe way to lose weight and exercise more intensively while unweighted
- Train without pain and reduce the stress to joints and muscles
- Recover effectively and with less pain after training or competition

Find Your Form

The innovative AlterG Anti-Gravity Treadmill is a game changer in body weight supported physical therapy. Whether you're a patient or an athlete dealing with lower body injuries, chronic pain or neurological conditions that inhibit mobility, you can benefit from the unweighting capabilities. The Anti-Gravity Treadmill helps a broad spectrum of people in Mesa – top level athletes, orthopedic and neurologic patients, pediatric, geriatric and those looking to lose weight - to achieve their personal health, wellness or performance goals.

The AlterG Difference

With its unique unweighting capabilities, the Anti-Gravity Treadmill allows you and your physical therapist to move your rehabilitation and training forward by:

- Allowing you to walk or run with no pain while maintaining a normal gait
- Reducing stress on joints and injured areas of your lower body
- Giving you the confidence and ability to run or walk longer and recover faster with less pain

The Next Step in Physical Therapy Rehabilitation

Unlike any body weight supported treadmill, the AlterG Anti-Gravity Treadmill can take you further, faster than you ever thought possible after surgery, injury or other mobility impairment.
